## What Can Autodesk Map 3D 2005 Do for Your GIS?

The CAD Store is pleased to announce an opportunity available only to NCCC Participants. Come and learn how Autodesk Map 3D 2005 can help develop your GIS. Learn how Autodesk Map 3D 2005 will:

- correlate coordinate systems
- import ortho corrected raster file
- import and export data formats
- develop COGO data
- import points
- create surfaces
- link to internal and external data sources

Plus go through the process of using Sheet Sets new in AutoCAD 2005. In order to fully experience this software every attendee will receive a personal copy of Autodesk Map 3D 2005. This is only available to registrants of NCCC 2004, so make sure you register for NCCC 2004.

**Date(s):** Aug 3<sup>rd</sup> or Aug 7<sup>th</sup>  
**Time:** 9:00AM – 5:00PM  
**Cost:** \$250
